DON'T RECOLOR

Clear space: Maintain minimum padding equal to the height of the "i" dot around all sides of the wordmark. **Minimum size:** 80px width for digital, 20mm for print. The wordmark is always set in **Poppins 700** at **letter-spacing: −2px**.

Color Palette

Aa

Navy
#0f1b33
rgb(15, 27, 51)
Primary brand color.
Backgrounds, text, logo on light.

Aa

Gold
#D4A832
rgb(212, 168, 50)
Accent on light backgrounds.
Highlights, dividers, CTAs.

Aa

Bright Gold
#E8C44E
rgb(232, 196, 78)
Accent on dark backgrounds.
Logo dark mode, dark-UI highlights.

Aa

White
#ffffff
rgb(255, 255, 255)
Text on navy. Card backgrounds.
Logo pill text.

Aa

Light Gray
#f5f5f7
rgb(245, 245, 247)
Page backgrounds. Card surfaces.
Light-mode containers.

Aa

Mid Gray
#86868b
rgb(134, 134, 139)
Secondary text. Captions. Inactive elements.

Aa

Dark Surface
#0d1117
rgb(13, 17, 23)
GitHub dark mode reference.
Dark-UI backgrounds.

Light mode: Use Navy for text and Gold #D4A832 for accents.
Dark mode: Use Bright Gold #E8C44E for accents and the wordmark — it has higher luminance for legibility on dark backgrounds.
Contrast: Navy on White passes WCAG AAA (16.4:1). Bright Gold on Navy passes WCAG AA (5.8:1).

Typography

BRAND — POPPINS 700

corvia

corvia — organizational memory

Poppins 700. Used exclusively for the wordmark and brand-adjacent headings. Letter-spacing: −2px at display sizes.

HEADINGS — INTER 700–800

What is corvia?

How it works

Inter 700–800. All section headings, card titles, feature names.

BODY — INTER 400–500

corvia is an open-source knowledge layer that gives AI agents organizational memory — knowledge that spans repositories, tracks relationships as a graph, evolves over time, and stays consistent when multiple agents write concurrently.

Inter 400 (body) / 500 (emphasis). Line-height 1.6–1.7 for readability.

CODE — JETBRAINS MONO 400

```
corvia search "how does auth work?"
```

JetBrains Mono 400. CLI commands, code snippets, hex values.

ROLE	SIZE	WEIGHT	FONT
Hero / Display	48–120px	700	Poppins
Page Title	36px	800	Inter
Section Heading	24px	700	Inter
Body	16px	400	Inter
Caption / Label	12–14px	500–700	Inter
Code	13–15px	400	JetBrains Mono
